

Working together to enhance health in care homes

Welcome to our new-look monthly e-bulletin

Welcome to the inaugural edition of **TELEgraph** – the new e-bulletin for everyone who is contributing in so many different and positive ways to the future success of our vanguard.

Each month, it aims to give you an insight into our world and update you on the joint progress we are making on our exciting journey together. It will also share any “breaking news” as and when it happens, so you hear first about major developments.

As our project both expands and gathers pace, this is the first of a number of new initiatives we are planning to improve the way in which we communicate with you.

A dedicated website is under development and we will soon be launching our presence on the full suite of social media.

We have already begun to talk to a range of stakeholders – including GPs and the care home community – to find out first-hand how we can support you in your roles and equip you with the right information at the right time in the right format.

As part of this audit, we want to actively engage with you and harness your thoughts, ideas, innovations and any comments to help us on the next stage of our journey to improve the population health, with our focus on those growing numbers of people living in care homes

If you have anything you would like to share, then please get in touch. ■
